The right light makes the moment

The more you dim, the warmer the light

Philips LED bulbs with a warm glow dimming offer a new experience in dimmable LEDs. As these Philips bulbs can be dimmed to the warm tones of traditional bulbs, you can go from everyday functional lighting, to inviting, to cosy atmospheres.

Choose for the high-quality light

- Learn about light
- Special optical design creating sparkling light effect

Light beyond illumination

- Dims to a warm glow

Choose a simple replacement for your old bulbs

- Instant light when switched on
- No UV or InfraRed

Choose for a sustainable solution

- Long-life bulbs – Last up to 15 years
- Better for your wallet and your planet

Create the right light for your home

- Perfect for general room lighting

PHILIPS

Highlights

Learn about light

Colour temperature: light can have different colour temperatures, indicated in units called Kelvin (K). Bulbs with a low Kelvin value produce a warm, more tranquil light, while those with a higher Kelvin value produce a cool, more energising light. CRI: the colour rendering index (CRI) is used to describe the effect of a light source on colour appearance. Natural sunlight has a CRI of 100. The CRI of Philips LED light bulbs is always higher than 80, which ensures that colours are shown as true and natural.

Sparkling effect

With its clear, elegant design and innovative LED technology, this decorative bulb produces a warm, sparkling light effect, adding a touch of tranquility to your home atmosphere.

WarmGlow dimming

With this dimmable bulb, you can dim from a 2200 K warm light to a 2700 K light. The more you dim, the warmer the light.

Instant On

No need to wait: Philips LED light bulbs provide their full level of brightness immediately, as soon as they are switched on. Just by turning the switch, your room is at full brightness. There is no slow starting or waiting.

15,000-hour rated average life

With a lifetime of up to 15,000 hours, you can reduce the hassle of frequently replacing your light bulbs, and enjoy a perfect lighting solution for over 15 years.

Saves up to 80% energy

LED technology saves up to 80% energy compared to your standard bulb. It therefore pays for itself and saves you money year after year. It also helps to protect the environment.

Perfect for general lighting

Contemporary lighting with Philips LED standard bulbs for use in table lamps, floor lamps and pendant fixtures. Ideal for use in kitchens, kitchen island lighting, living rooms and dining rooms.

No UV or IR

The light has no infra-red component, so no heat is radiated. Also, there is no ultra-violet component in this light. These two characteristics mean that this light will not cause fabric and other items to fade.

Bulb (Dimmable)
5.5 W (40 W) E27, Warm Glow, Dimmable

Specifications

Bulb characteristics

- Shape: Bulb
- Cap/fitting: E27
- Dimmable
- Voltage: 220–240 V
- Wattage: 5.5
- Wattage equivalent: 40

Power consumption

- Energy efficiency label: A+
- Power consumption per 1000h: 6 kW h

Light characteristics

- Light output: 470 lumen
- Beam angle: 150 degree
- Colour: Warm White, From warm to extra warm white
- Colour temperature: 2200-2700 K
- Colour rendering index (CRI): 80
- Starting time: <0.5 s
- Warm-up time to 60% light: Instant full light

Durability

- Lifetime of lamp: 15000 hour(s)
- Number of switch cycles: 50000
- Lumen maintenance factor: 0.7
- Average life (at 2.7 hrs/day): 15 year(s)

Bulb dimensions

- Height: 110 mm
- Width: 60 mm

Other characteristics

- Range: WarmGlow
- Lamp Classification Risk Group: RG0
- Mercury content: 0 mg
- Power factor: 0.7
- Lamp current: 32 mA

Rated values

- Rated power: 5.5 W
- Rated luminous flux: 470 lumen
- Rated lifetime: 15000 hour(s)
- Rated beam angle: 150 degree

Issue date 2018-10-30

Version: 2.0.1
