### Choose for a sustainable solution

- Long-life bulbs Last up to 15 years
- · Better for your wallet and your planet

# Comfortable LED light that is easy on your eyes

• Designed for the comfort of your eyes

# Highlights

#### Learn about light

Colour temperature: light can have different colour temperatures, indicated in units called Kelvin (K). Bulbs with a low Kelvin value produce a warm, more tranquil light, while those with a higher Kelvin value produce a cool, more energising light. CRI: the colour rendering index (CRI) is used to describe the effect of a light source on colour appearance. Natural sunlight has a CRI of 100. The CRI of Philips LED light bulbs is always higher than 80, which ensures that colours are shown as true and natural.

#### Incandescent-like warm white

This bulb has a colour temperature of 2,700 K, providing you with a warm, tranquil atmosphere, perfect for relaxing. This 2,700 K light is ideal for home lighting design

#### Vintage-style, modern LED

LED Classic bulbs are based on standard LED energy-saving technology. Now you can enjoy a retro-style bulb with state-of-the-art technology combined with vintage design.

#### **Replaces lustre incandescents**

With its beautifully shaped design and familiar dimensions, this is a contemporary lighting, LED lustre. The perfect sustainable replacement for traditional incandescent lustres.

#### 15,000-hour rated average life

With a lifetime of up to 15,000 hours, you can reduce the hassle of frequently replacing your light bulbs, and enjoy a perfect lighting solution for over 15 years.

## Saves up to 80% energy

LED technology saves up to 80% energy compared to your standard bulb. It therefore

pays for itself and saves you money year after year. It also helps to protect the environment.

#### No UV or IR

The light has no infra-red component, so no heat is radiated. Also, there is no ultra-violet component in this light. These two characteristics mean that this light will not cause fabric and other items to fade.

#### Gentle LEDs, easy on the eyes

It's easy to see how harsh lighting can strain the eyes. Too bright, and you get glare. Too soft and you experience flicker. Now you can gently light up your world with LEDs designed to go easy on the eyes, and create the perfect ambience for your home.

# Specifications

#### **Bulb characteristics**

- · Shape: Lustre
- Cap/fitting: E14
- Dimmable: No
- Voltage: 220-240 V
- Wattage: 4
- Wattage equivalent: 35

#### **Power consumption**

- Energy efficiency label: A++
- Power consumption per 1000h: 4 kW h

## **Light characteristics**

- Light output: 397 lumen
- EyeComfort: Eye Comfort
  Colour: Warm White
- $\bullet$  Colour temperature: 2700 K
- · Light effect/finish: Warm White
- Colour rendering index (CRI): 80
- Starting time: <0.5 s
- Warm-up time to 60% light: Instant full light

#### **Durability**

- Lifetime of lamp: 15000 hour(s)
- Number of switch cycles: 20000
- Lumen maintenance factor: 0.7
- Average life (at 2.7 hrs/day): 15 year(s)

# **Bulb dimensions**

- Height: 82 mm
- Width: 45 mm

#### Other characteristics

- Range: LED Classic
- Mercury content: 0 mg
- Power factor: 0.4
- Lamp current: 40 mA

#### **Rated values**

- Rated power: 4 W
- Rated luminous flux: 397 lumen
- Rated lifetime: 15000 hour(s)
